loans.com.au

^{*}Rates as at 5 June 2025. After a fixed rate term, a variable rate will apply. LVR based on assessment at settlement. Comparison rate calculated on a loan amount of \$150,000 over a term of 25 years based on monthly repayments. For variable rate interest only loans, comparison rates assume a 5 year interest only period. For fixed rate interest only loans, comparison rates assume an initial interest only period equal in length to the fixed period. For bridging loans, comparison rates assume a 1 year interest only period. During an interest only period, your interest only payments will not reduce your loan balance. This may mean you pay more interest over the life of the loan. WARNING: This comparison rate applies only to the example or examples given. Different amounts and terms will result in different comparison rates. Costs such as redraw fees, early repayment fees, discharge fees and cost savings such as fee waivers and cashback offers, are not included in the comparison rate but may influence the cost of the loan.

^{##}For metro location under \$1M only

^{###}Rate lock fee is compulsory for 5-year fixed terms.
